So do we.**

Red Bird Acres

**Food Animal Concerns Trust (FACT) provides grants, scholarships, webinars, mentorship, and other learning opportunities to family farmers who are raising their livestock and poultry humanely.**

FACT offers welfare-oriented livestock and poultry farmers like you a suite of services that are designed to support, empower, and expand humane farming practices.

95% of surveyed farmers who received a Fund-a-Farmer grant report that it impacted the financial sustainability of their farm.

FACT addresses some common obstacles facing farmers who raise their animals humanely by providing grant opportunities, conference scholarships, free webinars, a mentorship program, and an online community. We welcome partnering with you to improve the welfare of farm animals, while learning from and sharing your expertise.

FACT promotes the safe and humane production of meat, milk, and eggs, and envisions that all food-producing animals will be raised in a **healthy** and **humane** manner so that everyone will have access to safe and humanely-produced food in communities across the country.
