

# Support the future of humane farming

**Factory farming creates** inhumane living conditions for animals and puts everyone's health at risk. Through advocacy, education, and direct support for farmers, FACT plays a critical role in expanding humane farming practices and providing wider access to healthy, humanely produced food.

Your gift to FACT contributes toward our vision of all food-producing animals being raised in a humane and healthy manner and everyone having access to safe and healthy food. There are many ways to support our work, and every gift makes a difference.

*"We like FACT's vision, and we believe in them. They are efficient and transparent, and they do important work."*  
 — Miles Taub, Walter and Karla Goldschmidt Family Foundation

## Fund independent farmers

Each year, we support a network of more than 8,600 independent US farmers and farming organizations that are committed to humane farming practices. Through grants, webinars, and scholarships, we help farmers purchase equipment, pursue animal-welfare certifications, improve their pastures, and increase their understanding of humane farming practices.

## Ensure the safety of our food supply

FACT is committed to ensuring that our food is safe and healthy—both for the workers who produce it and for the people who eat it. We advocate for strong corporate and federal policies to end the overuse of antibiotics on farms, to ban dangerous veterinary drugs, and to require farms to control foodborne pathogens.

## Our impact

# 99%

Grant recipients reporting improved animal welfare

# 44

States in which FACT has directly supported humane farming

# 978,600

Animals supported by FACT funding

## Support consumer education

Consumers need clear, accurate information to make educated choices about the food they eat. Through a comprehensive series of web and print resources, we provide information about everything from the nutritional benefits of pasture-raised animals to how to interpret food labels. We also maintain lists of restaurants that are committed to serving humanely raised food.
